

Bioneer's participation in MEDLAB 2017

- Bioneer has participated in MEDLAB 2017 (2017. 02. 06~09, Dubai International Convention & Exhibition Centre)
- MEDLAB is world's largest medical laboratory exhibition, which allows over 30 000 visitors and 700 exhibitors from different countries across the world.
- Bioneer has exhibited and promoted the *AccuPower*[®] ZIKV (DENV, CHIKV) Multiplex Real-Time RT-PCR Kit, which is a product accepted for procurement through the WHO Emergency Use Assessment and Listing (EUAL) Procedure for IVDs.
- Bioneer has introduced and exhibited new molecular diagnostic instrument called *ExiStation*[™] 48 A System.

- *ExiStation*[™] 48 A System has received attention for automated process from barcode reading on the blood tubes, nucleic acid extraction to real-time PCR.

- During the event, Bioneer has signed a MOU contract with buyers from Africa and has consulted them for purchase enquiries of *AccuPower*[®] HIV, HBV and HCV Quantitative PCR Kits.

- Starting from MEDLAB 2017, Bioneer plans to strengthen its sales by extending its business to global molecular diagnosis market that is estimated to be worth \$77 billion by 2021.
