## 2. How to order the product

- When you click a product, you can check its details and order it.

**Step 1**

### AccuPower® Taq PCR PreMix & Master Mix

1) *AccuPower® Taq* PCR PreMix is Bioneer's patented technology that combines components required for PCR such as *Taq* DNA polymerase, dNTPs, and reaction buffer, and is vacuum dried once. In addition, stabilizers are added to keep the activity stable for one month when stored at room temperature (25℃) and for two years when stored frozen.

※ Master Mix product is shipped in dry ice.
