# [Cat. No.] K-2975

### Introduction

*AccuPower*<sup>®</sup> Campylobacter upsaliensis Real-Time PCR Kit is a product that can detect *Campylobacter upsaliensis* (*C. upsaliensis*), which causes gastroenteritis, by real-time PCR.

*C. upsaliensis* is a gram-negative bacterium known to be one of the causative agents of gastroenteritis in dogs and campylobacteriosis in humans. *C. upsaliensis* is pathogenic to livestock and humans, and is mainly transmitted through ingestion of raw meat, contaminated water or food. When infected with *C. upsaliensis*, symptoms such as gastroenteritis, fever, diarrhea, and stomach cramps may occur, and appropriate antibiotic treatment such as Erythromycin is required. This product contains all Real-time PCR components specific to *C. upsaliensis*, including DNA polymerase, dNTPs, and reaction buffer. The users can easily prepare reaction mixture simply by adding template DNA, Oligo Mix and DEPC-D.W.

### **Features & Benefits**

- Convenience: All necessary reactants for real-time PCR are included in a tube (i.e., Master Mix Type), allowing the users to perform reaction simply by adding template DNA, Oligo Mix, and DEPC-D.W.
- Sensitivity: By using BIONEER's HotStart *Taq* DNA Polymerase that minimizes non-specific reactions and maximizes reaction efficiency, only the target gene can be effectively amplified even with a trace amount of template DNA.

#### Components

Components	Amount
2X Master Mix	625 µl x 2
Oligo Mix	500 µl
DEPC-D.W.	1.8 ml
Positive Control (1x10 <sup>8</sup> copies/µl)	50 µl

\* Note: For research use only. Not for use in diagnostic or therapeutic procedures.

## Composition

	Composition	25 μl reaction
	Taq DNA Polymerase	2 U
2X Master Mix	dNTPs (dATP, dCTP, dGTP, dTTP)	Each 300 µM
	Reaction buffer with 2 mM $MgCl_2$	1X
	S. aureus Forward primer	0.32 µM
Oligo Mix	S. aureus Reverse primer	0.32 µM
Oligo Mix	S. aureus Probe (FAM)	0.32 µM
	ROX dye	1X

### **Specifications**

Taq DNA Polymerase					
5' $\rightarrow$ 3' exonuclease activity	Yes				
$3' \rightarrow 5'$ exonuclease activity	No				
3'–A overhang	Yes				

### Storage

Store at -20°C. If stored in the recommended temperature, this product will be stable until the expiration date printed out on the label.
