[Cat. No.] K-6821

Introduction

AccuPower® Klebsiella pneumoniae Real-Time PCR Kit is a product that can specifically detect Klebsiella pneumoniae (K. pneumoniae) by real-time PCR.

K. pneumoniae is a gram-negative bacterium that causes pneumonia, urinary tract infections, and sepsis. K. pneumoniae is an opportunistic pathogen that is usually present in the mouth, skin, and intestines of a healthy person, but when inhaled or flowed into the lungs or bloodstream through a catheter, it is pathogenic. K. pneumoniae causes various diseases depending on the infected area. Especially, pneumonia commonly occurs in patients with reduced immunity such as alcoholics and diabetic patients. This product contains all Real-time PCR components specific to K. pneumoniae, including DNA polymerase, dNTPs, and reaction buffer. The users can easily prepare a reaction mixture simply by adding template DNA, Oligo Mix, and DEPC-D.W.

Features & Benefits

- Convenience: All necessary reactants for real-time PCR are included in a tube (i.e., Master Mix Type), allowing the users to perform reaction simply by adding template DNA, Oligo Mix, and
- Sensitivity: By using BIONEER's HotStart Taq DNA Polymerase that minimizes non-specific reactions and maximizes reaction efficiency, only the target gene can be effectively amplified even with a trace amount of template DNA.

Components

Components	Amount
2X Master Mix	625 µl x 2 ea
Oligo Mix	500 μΙ
DEPC-D.W.	1.8 ml
Positive Control (1x10 ⁸ copies/µI)	50 μΙ

^{*} Note: For research use only. Not for use in diagnostic or therapeutic procedures.

Composition

	Composition	25 μl reaction
	Taq DNA Polymerase	2.5 U
2X Master Mix	dNTPs (dATP, dCTP, dGTP, dTTP)	Each 300 µM
······×	Reaction buffer with 2 mM MgCl ₂	1X
	K. pneumoniae Forward primer	0.4 µM
Oligo Miy	K. pneumoniae Reverse primer	0.4 µM
Oligo Mix	K. pneumoniae Probe (FAM)	0.4 µM
	ROX dye	1X

Specifications

Taq DNA Polymerase				
5'→3' exonuclease activity	Yes			
3'→5' exonuclease activity	No			
3'-A overhang	Yes			

Storage

Store at -20°C. If stored in the recommended temperature, this product will be stable until the expiration date printed out on the
