

[Cat. No.] K-6861

Introduction

AccuPower® Citrobacter koseri Real-Time PCR Kit is a product that can specifically detect Citrobacter koseri (C. koseri) by real-time PCR.

C. koseri is Enterobacteriaceae family and one of the bacteria in the digestive tract of humans and animals. However, it is an opportunistic pathogen that can cause fatal meningitis, brain abscesses, sepsis and encephalitis in newborns. In addition, C. koseri can be transmitted vertically from mother to fetus, and transmission in child care facilities and hospitals can occur. It can be treated with antibiotics, but sequelae such as complex hydrocephalus and neurological damage may occur.

This product contains all Real-time PCR components specific to

This product contains all Real-time PCR components specific to *C. koseri*, including DNA polymerase, dNTPs, and reaction buffer. The users can easily prepare a reaction mixture simply by adding template DNA, Oligo Mix, and DEPC-D.W.

Features & Benefits

- Convenience: All necessary reactants for real-time PCR are included in a tube (i.e., Master Mix Type), allowing the users to perform reaction simply by adding template DNA, Oligo Mix, and DEPC-D.W.
- Sensitivity: By using BIONEER's HotStart Taq DNA Polymerase that minimizes non-specific reactions and maximizes reaction efficiency, only the target gene can be effectively amplified even with a trace amount of template DNA.

Components

Components	Amount
2X Master Mix	625 µl x 2 ea
Oligo Mix	500 μΙ
DEPC-D.W.	1.8 ml
Positive Control (1x10 ⁸ copies/µI)	50 µl

^{*} Note: For research use only. Not for use in diagnostic or therapeutic procedures.

Composition

	Composition	25 μl reaction
	Taq DNA Polymerase	2.5 U
2X Master Mix	dNTPs (dATP, dCTP, dGTP, dTTP)	Each 300 µM
WilX	Reaction buffer with 2 mM MgCl ₂	1X
	C. koseri Forward primer	1.0 µM
Oligo Miy	C. koseri Reverse primer	1.0 µM
Oligo Mix	C. koseri Probe (FAM)	1.0 µM
	ROX dye	1X

Specifications

Taq DNA Polymerase				
5'→3' exonuclease activity	Yes			
3'→5' exonuclease activity	No			
3'-A overhang	Yes			

Storage

Store at -20°C. If stored in the recommended temperature, this product will be stable until the expiration date printed out on the label
