

[Cat. No.] K-6890

Introduction

AccuPower® Candida albicans Real-Time PCR Kit is a product that can specifically detect Candida albicans (C. albicans) by real-time PCR.

C. albicans is a pathogenic yeast that can be found in the gastrointestinal tract and oral cavity of healthy adults. It is the most common yeast that can be isolated from the biofilm formed on implanted medical devices and causes candidiasis. About 75% of women will suffer from *Candida vaginitis* at some point in their life, and 90% of these infections are caused by *C. albicans*. In addition, the mortality rate of patients infected with systemic candidiasis in hospitals has been reported to be approximately 40%, so people with weakened immune system need to be careful.

This product contains all Real-time PCR components specific to *C. albicans,* including DNA polymerase, dNTPs, and reaction buffer. The users can easily prepare a reaction mixture simply by adding template DNA, Oligo Mix, and DEPC-D.W.

Features & Benefits

- Convenience: All necessary reactants for real-time PCR are included in a tube (i.e., Master Mix Type), allowing the users to perform reaction simply by adding template DNA, Oligo Mix, and DEPC-D.W.
- Sensitivity: By using BIONEER's HotStart Taq DNA Polymerase that minimizes non-specific reactions and maximizes reaction efficiency, only the target gene can be effectively amplified even with a trace amount of template DNA.

Components

Components	Amount
2X Master Mix	625 µl x 2 ea
Oligo Mix	500 µl
DEPC-D.W.	1.8 ml
Positive Control (1x10 ⁸ copies/µI)	50 µl

^{*} Note: For research use only. Not for use in diagnostic or therapeutic procedures.

Composition

	Composition	25 μl reaction
	Taq DNA Polymerase	2.5 U
2X Master Mix	dNTPs (dATP, dCTP, dGTP, dTTP)	Each 300 µM
	Reaction buffer with 2 mM MgCl ₂	1X
	C. albicans Forward primer	0.48 µM
Oligo Mix	C. albicans Reverse primer	0.48 µM
Oligo IVIIX	C. albicans Probe (FAM)	0.48 μM
	ROX dye	1X

Specifications

Taq DNA Polymerase				
5'→3' exonuclease activity	Yes			
3'→5' exonuclease activity	No			
3'–A overhang	Yes			

Storage

Store at -20°C. If stored in the recommended temperature, this product will be stable until the expiration date printed out on the label
