

Material Safety Data Sheet Version No.: 3.0(Revision Date: 2023-12-08)

Master mix

1. PRODUCT AND COMPANY IDENTIFICATION

- A. Product name : Master mix
- B. Recommended use : Research use only
- C. Supplier
 - \bigcirc Company name : Bioneer corporation
 - Address: 71, Techno 2-ro, Yuseong-gu, Daejeon, Republic of Korea
 - Telephone : +82-42-1588-9788

2. HAZARDS IDENTIFICATION

A. Emergency Overview

Not applicable

- B. GHS Label elements, including precautionary statements
 - Pictogram

Not applicable

- Signal word : Not applicable
- \bigcirc Hazard statements(s) :

Not applicable

○ Precautionary statements :

Prevention :

Not applicable

Response :

Not applicable

Storage :

Not applicable

Disposal :

Not applicable

C. Other hazards which do not result in classification (Example: dust explosion hazard) : No data available

3. COMPOSITION/INFORMATION ON INGREDIENTS

Chemical Name	CAS Number	Weight per volume percent [% (w/v)]
4-(2-Hydroxyethyl)-piperazine-1- ethanesulfonic acid	7365-45-9	5 ~ 10%
Trade secret	_	Trade secret

4. FIRST AID MEASURES

A. In case of eye contact :

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do -

continue rinsing.

Get immediate medical advice/attention.

B. In case of skin contact :

IF ON SKIN (or hair): Take off Immediately all contaminated clothing. Rinse SKIN with water [or shower].

Get immediate medical advice/attention.

C. If Inhaled :

IF INHALED: Remove person to fresh air and keep comfortable for breathing.

Get immediate medical advice/attention.

D. If swallowed :

IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.

Get immediate medical advice/attention.

E. Notes to physician :

Notify medical personnel of contaminated situations and have them take appropriate protective measures.

5. FIRE-FIGHTING MEASURES

A. Suitable (or unsuitable) extinguishing media :

Suitable extinguishing media: Water, Foam, Carbon dioxide (CO2), Dry powder.

Unsuitable extinguishing media: For this mixture no limitations of extinguishing agents are given.

- B. Specific hazards arising from the chemical (Example: Hazardous substances generated during combustion) :
 Material may produce irritating and highly toxic gases from decomposition by heat and combustion during burning.
 When heated, vapors may form explosive mixtures with air: explosion hazards indoors, outdoors and in sewers
- C. Special protective actions for firefighters :

Rescuers should put on appropriate protective gear.

Evacuate area and fight fire from a safe distance.

Move containers from fire area if you can do it without risk.

6. ACCIDENTAL RELEASE MEASURES

A. Personal precautions, protective equipment :

Avoid breathing dust/fume/gas/mist/vapors/spray.

Clean up spills immediately, observing precautions in '8. EXPOSURE CONTROLS/PERSONAL PROTECTION' section.

Isolate hazard area.

Keep unnecessary and unprotected personnel from entering.

Eliminate all ignition sources.

Stop leak if you can do it without risk.

Do not touch damaged containers or spilled material unless wearing appropriate protective clothing.

B. Environmental precautions :

Runoff from fire control may be corrosive and/or toxic and cause pollution.

Prevent entry into water ways, sewers, basements or confined areas.

C. The methods of purification and removal :

Absorb spills with inert material (e.g., dry sand or earth), then place in a chemical waste container.

Reduce dust and prevent scattering by moistening with water.

Dissolve in water and collect for proper disposal.

Absorb the liquid and scrub the area with detergent and water.

7. HANDLING AND STORAGE

A. Precautions for safe handling :

Do not handle until all safety precautions have been read and understood.

Do not eat, drink or smoke when using this product.

Use carefully in handling/storage.

Use only outdoors or in a well-ventilated area.

Loosen closure cautiously before opening.

Avoid breathing dust/fume/gas/mist/vapors/spray.

Wash your hands thoroughly after handling.

Avoid prolonged or repeated contact with skin.

Contaminated work clothing should not be allowed out of the workplace.

Follow all MSDS/label precautions even after container is emptied because they may retain product residues.

B. Conditions for safe storage, including any incompatibilities :

Store in a cool, well-ventilated place. Keep container tightly closed.

Do not apply any physical shock to container.

Avoid direct sunlight.

Keep in the original container.

Please pay attention to incompatibilities materials and conditions to avoid.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

A. Occupational Exposure Limits :

No data available

B. Appropriate engineering controls :

No data available

- C. Personal Protective Equipment :
 - Respiratory protection :

No data available

 \bigcirc Eye protection :

Wear the protective glasses or breathable safety goggles to protect from particles causing eye irritation or other disorder.

An eye wash unit and safety shower station should be available nearby work place.

 \bigcirc Hand protection :

Wear appropriate protective gloves by considering physical and chemical properties of chemicals.

 \bigcirc Skin and body protection :

Wear appropriate resistant protective clothing by considering physical and chemical properties of chemicals.

9. PHYSICAL AND CHEMICAL PROPERTIES

- A. Appearance (form, color, etc) : No data available
- B. Odor : No data available
- C. Odor Threshold : No data available
- D. pH : No data available
- E. Melting/Freezing point : No data available
- F. Initial boiling point/range : No data available
- G. Flash point : No data available
- H. Evaporation rate : No data available
- I. Flammability (solid, gas) : No data available
- J. Lower/upper explosion limit : No data available
- K. Vapor pressure : No data available
- L. Water solubility : No data available
- M. Relative vapor density : No data available
- N. Density : No data available
- O. Partition coefficient: n-octanol/water : No data available
- P. Autoignition temperature : No data available
- Q. Decomposition temperature : No data available
- R. Viscosity : No data available
- S. Molecular weight : No data available

10. STABILITY AND REACTIVITY

A. Chemical stability/Possibility of hazardous reactions :

No data available

B. Conditions to avoid :

No data available

C. Incompatible materials :

No data available

D. Hazardous decomposition products :

No data available

11. TOXICOLOGICAL INFORMATION

A. Information on the likely routes of exposure

Category	Chemical name	Content
	4-(2-Hydroxyethyl)-	
Likely routes of	piperazine-1-	No data available
exposure	ethanesulfonic acid	
	Trade secret	No data available

B. Delayed and immediate effects and also chronic effects from short and long term exposure

Category	Chemical name	Content
	4-(2-Hydroxyethyl)-	
Acute toxicity	piperazine-1-	LD50 Oral - Rat - male and female - > 2,000 mg/kg
(Oral)	ethanesulfonic acid	
	Trade secret	LD50 Oral - Rat - male and female - > 2,000 mg/kg

Mobility in soil	ethanesulfonic acid	
	Trade secret	No data available
	4-(2-Hydroxyethyl)-	
Other adverse	piperazine-1-	No data available
effects	ethanesulfonic acid	
	Trade secret	No data available

13. DISPOSAL CONSIDERATIONS

A. Disposal methods :

Waste material must be disposed of in accordance with the national and local regulations.

B. Special precautions for disposal :

The user of this product must disposal by oneself or entrust to waste disposer or person who other's waste recycle

and dispose, person who establish and operate waste disposal facilities.

14. TRANSPORT INFORMATION
