

Product Description	Year	Title	Author	Article Information	Link
Gene Synthesis Service	2016	Development and evaluation of a competitive enzyme-linked immunosorbent assay using a monoclonal antibody for diagnosis of severe fever with thrombocytopenia syndrome virus in bovine sera	Hyojin Lee, Eun-Ju Kim, Jae-Young Song, Jeong Soo Choi, Ji Youn Lee, In-Soo Cho, and Yeun-Kyung Shin	J Vet Sci. 17(3) 307-314.	https://synapse.koreamed.org/search.php?where=aview&id=10.4142/jvs.2016.17.3.307&code=0118JVS&vmode=FULL
Gene Synthesis Service	2016	Identification of Oligosaccharides in Human Milk Bound onto the Toxin A Carbohydrate Binding Site of Clostridium difficile	Nguyen TT, Kim JW, Park JS, Hwang KH, Jang TS, Kim CH, Kim D.	J Microbiol Biotechnol. 26(4) 659-65	https://www.ncbi.nlm.nih.gov/pubmed/26718473
Gene Synthesis Service	2016	Chimeric Bivalent Virus-Like Particle Vaccine for H5N1 HPAI and ND Confers Protection against a Lethal Challenge in Chickens and Allows a Strategy of Differentiating Infected from Vaccinated Animals (DIVA)	Jin-Yong Noh, Jae-Keun Park, Dong-Hun Lee, Seong-Su Yuk, Jung-Hoon Kwon, Sang-Won Lee, Joong-Bok Lee, Seung-Yong Park, In-Soo Choi, Chang-Seon Song	PLOS one: September 14, 2016	https://journals.plos.org/plosone/article?id=10.1371/journal.pone.0162946
Gene Synthesis Service	2016	The Conserved Phenylalanine in the Transmembrane Domain Enhances Heteromeric Interactions of Syndecans	Mi-Jung Kwon, Jisu Park, Sinae Jang, Chi-Yong Eom and Eok-Soo Oh	J Biol. Chem. 291, 872-881.	http://www.jbc.org/content/291/2/872.short
